

Marshall-Slingsby Advanced Composites

Premier Autoclave Service & Solutions were our choice to support and service our autoclaves on site.

Premier Autoclaves are only a phone call away and their enthusiasm, rapid response times and willingness to help in all situations sets them apart from the competition.

We have a great relationship with the team and recently raised a new 3 year contract with them to cover all aspects of our autoclave systems.

I would highly recommend Premier Autoclave Service & Solutions as a solid, reliable supplier, and experts in their field.

Kind Regards,

J.S.Harmer
Facilities Manager
